

## Celebrating 70 Years in Washington

As we begin our 8th decade in business, we take tremendous pride in achieving such longevity in the town where it all began.

Because of our team members past and present – extraordinary local people – we have become the nation's leading supplier of pre-finished tool steels. This accomplishment results from embracing the core beliefs of our late founder, **Tom Milhollan**. Believing in people and devoting an exceptional amount of attention to customers are why **The Deluxe Company** continues in business.

Under the leadership of Tom's son, Jack, our unwavering commitment to customer loyalty has enabled us to remain the industry leader.

To everyone in the community who has contributed to our success, we appreciate your support in helping us to reach this milestone.

Tom Milhollan founded the company in 1948.
